Wahidul Rayhan Abir

I am from electronics engineering educational background.
My final year project was on cross-platform mobile application development.
have pursued on diverse fields for a better future prospect.

Results-driven professional with a proven track record as Manager. Demonstrated expertise in strategic planning, business development, and team leadership, resulting in increased revenue and client satisfaction. Seeking a challenging opportunity to leverage my skills and experience in a dynamic organization to drive growth and success

Experience

10/2024 - Present

**HS Engineering and Technology Ltd I Dhaka I Bangladesh
Engineer**

Provided technical support and maintenance services for telecom towers, including AC/D power supply systems, solar power solutions, and other critical telecom infrastructure. Oversaw the installation, troubleshooting, and upkeep of power systems, cabinets, and civil works for telecom sites. Ensured compliance with industry standards and safety regulations while working with telecom operators. Coordinated with cross-functional teams to optimize power supply efficiency and reliability at telecom sites. Assisted in the integration of renewable energy solutions, such as solar systems, to enhance network sustainability.

07/2022 - 09/2024

**Emon Employment Services Limited I Dhaka I Bangladesh
Manager of Operations**

- Led a team of 10+ employees in providing comprehensive employment services, resulting in a 25% increase in client satisfaction and a 30% growth in revenue within the first year.
- Developed and executed strategic business plans, identifying new market opportunities and forging key partnerships, resulting in a good profit margin.

01/2021 - 08/2021

**Dbm-soft I Dhaka I Bangladesh
Manager of innovation**

I have worked as manager of innovation in dbm-soft start-up with technical IT experts providing them insights, bring new Business prospects, monitoring and delivering the projects on time. We successfully brought few clients for a good turnover.
