Currently as a Senior Project Manager for technology company LogixLab Sdn Bhd based in Cyberjaya Malaysia. I have extensive experience in the IT industry, Oil & Gas, Government and Corporate as well as project management. Recently I have successfully managed a project in Artificial Intelligence prototype for the Ministry of Health Malaysia, Royal Malaysia Police (PDRM) and IoT for Malaysia Hajj Pilgrim Tabung Haji and private cloud implementation in LHDNM.

I believe that my strong background in IT consultancy, combined with my extensive experience in leadership, mentoring, multicultural virtual team, planning, executing, monitoring, and closing a variety of global projects, makes me ideally suited to this role. I am highly organized and self-motivated, have excellent communication skills, and thrive in high-pressure environments. A solid team player, I work to tight deadlines and have plenty of initiative.

I am internationally recognized for PMI Project Management Professional qualification.
