Profile

A technological & business enthusiast, balanced with a strong inclination on human values, ethics and culture. Proactive and enjoy being part of, as well as leading a successful and productive team. I am quick to grasp new ideas and concepts, and to develop innovative and creative solutions to problems. Able to work well on my own initiative or with a team, demonstrating high levels of motivation to set and achieve objectives.

Objective

I am building on my extensive range of skills within a suitably challenging and dynamic role. Keen to achieve further heights by embarking and riding the wave of ever-evolving technology, driving business and digital transformations. Looking forward to meeting more people, learning more and experience various cultural diversification.

Experience

Driving businesses and achieving objectives with 12 years of industry-experience in IT, Cybersecurity, Energy & Engineering providing solutions with knowledge and exposure gained on business frameworks, culture, governance, policies, compliance & process from various industries such as Financial Service Industries, Oil & Gas, Engineering & Renewable Energy.

Career Path
