### **RECOMMENDATIONS**

Received

Given

**Steven East** · 1st

Project Manager at Macquarie Telecom at Macquarie Telecom Group

November 8, 2017, Steven managed Adrian Chew directly

I had the pleasure of being Adrian's direct manager for just over three years at GEIM/Optus, where he showed himself to be an outstanding Project Manager delivering complex ICT / telco projects on time and on budget. Adrian's technical knowledge, can-do attitude, attention to detail and his proactive approach led to Adrian's promotion to a leadership position within the Project Management team where he has also further developed his coaching, mentoring and leadership skills. I always felt confident knowing projects were being managed by Adrian!

I absolutely no hesitation in recommending him to any future employer.
