## Work experience

**Manager - Business Development** Jul 2022 - Present  
*SALCON Engineering Berhad, Subang Jaya, Selangor*

1. To maintain relationships with Authorities (PAAB, SPAN, KASA, State Water Operator, Suruhanjaya Tenaga, Ministries, etc.)
2. Identify & participate in bids/proposals in Water, Wastewater Projects, Green Technology, Solar & Hydro Power plants.
3. Secure new projects with a minimum cumulative value of MYR 1.5 billion / year.
4. Attending conferences, meetings and industry events.

**Manager - Authority Liaison** Jul 2022 - Present  
*SALCON Engineering Berhad, Subang Jaya, Selangor*

1. **Research and Analysis:** Stay informed about relevant laws, regulations, and policies that may impact your organization. Analyze their implications and provide insights to internal stakeholders.
2. **Relationship Building:** Develop and maintain positive relationships with key officials, regulators, and government representatives. Attend meetings, conferences, and events to network and advocate for your organization's interests.
3. **Communication:** Serve as the main point of contact between your organization and authorities. Keep both parties informed about relevant developments, requirements, and concerns.
4. **Compliance:** Ensure that your organization complies with all applicable laws, regulations, and requirements. Work with internal teams to implement necessary changes or procedures.
5. **Advocacy:** Advocate for your organization's interests and objectives within the regulatory framework. Present your organization's positions, proposals, and concerns to authorities compellingly and persuasively.
6. **Problem Solving:** Address issues and conflicts that may arise between your organization and authorities. Work to find mutually acceptable solutions that align with legal and regulatory requirements.
7. **Reporting:** Prepare regular reports on regulatory developments, compliance status, and interactions with authorities. Provide insights and recommendations to senior management based on your analysis.
8. **Monitoring and Evaluation:** Continuously monitor regulatory developments and evaluate their potential impact on your organization. Adjust strategies and actions as needed to ensure compliance and alignment with organizational goals.
9. **Risk Management:** Identify and assess risks related to regulatory compliance and authority relations. Develop strategies to mitigate these risks and ensure the organization's interests are protected.
