Cypark Resources Berhad

Position:

Project Risk Control

Job Scope:

1. Risk Identification: Systematically identify potential risks that could affect the project. This can include technical risks, financial risks, operational risks, and external risks.
2. Risk Assessment: Evaluate the likelihood and impact of identified risks. This involves analyzing how likely a risk is to occur and the potential impact on the project if it does.
3. Risk Mitigation: Develop and implement strategies to mitigate or manage identified risks. This may include creating contingency plans, reallocating resources, or adjusting project plans
4. Monitoring and Reporting: Continuously monitor risk factors throughout the project lifecycle. Provide regular risk reports to stakeholders, highlighting any new risks and the status of ongoing risk mitigation efforts.
5. Risk Communication: Ensure that all relevant stakeholders are aware of risks and their potential impacts. Facilitate communication between teams to ensure that everyone understands their role in managing risks.
6. Risk Documentation: Maintain thorough documentation of risk management activities, including risk registers, risk assessments, and mitigation plans.
7. Collaboration: Work closely with project managers, team members, and other stakeholders to integrate risk management practices into project planning and execution.

ESG (Environmental, Social & Governance) Coordinator

1. ESG Strategy Development: Assist in developing and implementing ESG strategies that align with the company's goals and regulatory requirements.
2. Compliance and Reporting: Ensure that the organization complies with relevant ESG regulations and standards. Prepare and submit ESG reports and disclosures to stakeholders, investors, and regulatory bodies.
3. Data Collection and Analysis: Gather and analyze data related to environmental impact, social practices, and governance issues. Use this data to track performance and identify areas for improvement.
4. Stakeholder Engagement: Engage with internal and external stakeholders, including employees, customers, investors, and community members, to address ESG concerns and promote the company's ESG initiatives.

5. Policy Development: Develop and update policies and procedures related to ESG issues, ensuring they are integrated into the company's operations and culture.

6. Training and Awareness: Conduct training sessions and awareness programs to educate employees and management about ESG practices and their importance.

7. Risk Management: Identify and assess ESG-related risks and work with relevant departments to develop strategies to mitigate these risks.

8. Sustainability Initiatives: Coordinate and support sustainability initiatives such as waste reduction programs, energy efficiency projects, and community outreach efforts.

9. Benchmarking and Best Practices: Stay informed about ESG trends, best practices, and regulatory changes. Benchmark the organization's ESG performance against industry standards and recommend improvements.
