- Responsible for executing the firm orders within lead-time for suppliers whilst **maintaining target inventory levels** and optimal supplier price.
- Key user for **SAP & Rapid Response**
- Responsible for **monitoring and actioning inventory at risk of obsolesce**
- Explore opportunities for **improved planning efficiency** and placing of materials orders
- Liaise with the 3PL on the logistic activity to **ensure materials arrive on time**.
- **Planning** and **utilize** the container space and shipment for **cost optimization**.
- Responsible for **resolving** any process /system issues to ensure compliance to business controls

ARCADIS DPS GROUP

Supply Chain Lead – Intel Pelican Project, May 2024 – May 2025

- Improved **KPI performance to 95%** within 3 months through strategic supply chain efforts.
- Cleared **300+ negative float materials** and resolved **1,000+ past due items**.
- Managed **site-wide inventory** for tool installs programs and escalations for CFCI M&E.
- Collaborated with **global teams (US, IR)** to standardize operations.
- Developed **procurement strategies** focusing on **supply assurance and trade development**.
- Maintained vendor relationships and used a **vendor scorecard** for evaluation.
- **Utilized existing global inventory stock** strategically to reduce procurement costs, minimize excess, and support project needs efficiently.
- Proactively closed material lateness gaps through **alternate sourcing, inventory reallocation, and strategic part swaps**.
- **Spearheaded resolution strategies** for float material issues, achieving approximately 40% savings in both cost and lead time through process optimization and cross-functional collaboration.

ZERO MASS WATER HOLDINGS

Assistant Procurement Manager (Direct & Indirect), May 2023 – May 2024

- Led **localization project** sourcing suppliers for **metals, plastics, PCBs, glass, solar, PCB components & electronics**.
- Initiated **Supplier Summit** identifying **33% cost savings opportunities**.
- Managed procurement team of 4 and **streamlined SOP documentation**.
- Directed **supplier qualification** with engineering and quality teams.
- **Cross functional collaboration** with Engineering & Quality to align specs and cost goals.
- Negotiated **favourable procurement contracts** ensuring supply continuity.
- Designed and implemented a **VMI program & JIT framework**, improving production continuity and reducing manual inventory handling.

- Developed and implemented **contract procurement strategies**, resulting in **reduced BOM costs** through supplier consolidation and negotiated terms.
- Contributed to **material improvement initiatives** by recommending alternative materials, leading to measurable **cost reductions** and **enhanced end-product quality**.
- Supported **NPI sourcing** during pre-production and design phases by collaborating with Engineering and Quality to identify cost-effective components, qualify suppliers, and align procurement with project timelines.

ULTRA CLEAN TECHNOLOGY

Senior Buyer (Direct Materials), May 2021 – May 2023

- Reduced **blocked invoices from 1,161 to 568**, improving cash flow.
- Managed procurement for a 13-buyer **team supporting \$180M revenue**.
- Led critical part resolution meetings and mitigated **global supply shortages**.
- Led CTB meetings with Hayward's high-level operations team to **resolve critical supply chain issues, facilitate cross-functional collaboration, and drive timely decision-making**.
- Trained staff on **inventory control, PO issuance, and supplier reporting**.
- Utilized **SAP** and **demand forecasting** techniques to monitor and control inventory levels, avoiding overstock and supporting lean warehouse operations.
- Collaborated with inventory analysts to **optimize inventory utilization** by reallocating excess materials across global sites, reducing duplicate orders and improving supply chain efficiency.
- Assisted Program Manager in **customer engagements**, responding to delivery timeline inquiries and aligning project schedules to meet client expectations.

UNILIN MALAYSIA

Procurement Lead (Indirect Materials), Aug 2018 – May 2021

- Achieved **€250K profit increase** via sawdust by-product monetization.
- Secured **20% cost savings** through OEM sourcing strategies.
- Led sourcing for fabrication services ensuring **production continuity**.
- Executed **lean projects** to improve **cost and efficiency**.
- Led a team of 4 buyers managing procurement operations and **resolving daily supply and logistics issues** to ensure continuity and efficiency.
- Managed RM 2M+ annual spend covering **MRO, fabrication, packaging, and OEM categories, driving 20% cost savings** through **strategic sourcing** initiatives and **vendor negotiations**.
- Managed **inventory control** using **SAP** to prevent supply disruptions & enforce **FIFO** (First-In, First-Out)
- Negotiated **contracts** for forklift rentals, photocopy machines, and raw materials, securing favourable pricing and terms and conditions to **optimize cost and operational efficiency**.
- Supported multiple **CapEx projects** ranging from RM 100K to RM 1M by assisting end users with supplier quotations, technical clarifications, and cost finalization to ensure on-time project execution.

ALPHA INDUSTRIES

Delivery & Shipping Officer, Oct 2017 – Jul 2018

- Coordinated **logistics with transporters and production** to meet deadlines.
- Handled **INFOR ERP documentation** for deliveries and containers.

Purchaser (Indirect), Feb 2015 – Apr 2017

- Reduced **packaging costs by 33%** via negotiations and sourcing.
- Handled **local and foreign supplier relations** and PO processes.
- Used **MRP (INFOR)** to manage **procurement and inventory**.
